Experience

Interaction Developer, Hearsay Social
San Francisco, CA — June 2015 - Present

Build industry-leading user experiences for Hearsay's financial insurance clients. Construct dynamic, interactive front end web applications, reusable modules and create clean and mobile responsive HTML, CSS/SASS and Javascript deliverables for clients.

Part of team effort in building product in ReactJS framework. Integrate back-end data using Underscore.js and Backbone.js templates.

Work closely with UX/UI designers to provide informed, technical opinions throughout the design process to help determine the best approach of interface implementation.

Seasonal Design Associate, Minted
San Francisco, CA — November 2014 - December 2014

Extensively use Adobe Photoshop, Illustrator, and InDesign to create customer proofs from artwork templates, prepare print-ready files, and edit pre-made design files. Proof read customer designs, fulfilled customer orders and color corrected photos for optimal print quality.

Web Development Intern, New York Philharmonic
New York, NY — Summer 2014

Managed and published site content as a part of the Digital Media team through Sitecore. Part of team effort in creating and launching interactive web projects, including "Watch and Listen", featuring audio and video media. Developed research proposal on in-browser location based services applications for organization's reference.

Education

General Assembly, San Francisco, CA —
Full Stack Web Development Immersive, January 2015 - April 2015

Full-stack web development student at General Assembly's 12 week intensive, full time course, focusing on both the front-end (HTML, CSS, Javascript) and server-side languages and frameworks (Ruby, Rails, Node)

Smith College, Northampton, MA — BA Psychology, minor in Economics, 2013
Dean's List
